A circular border composed of numerous US dollar bills, including \$100 and \$50 bills, arranged in a ring around the central text. The bills are slightly overlapping and tilted, creating a textured frame.

**How can we saving
money affect our
future?**

Introduction

Below is a short story about the fate of a young boy who found out how important it is to save money.

Happy reading – The Authors

I. Recklessness

Max was an adolescent boy. His parents were rich so he could afford many things. The parents once noticed that their son buys whatever he wants without thinking whether he really needs it. They talked to him about spending wisely and saving money, but that didn't help.

1

II. Night Vision

The boy couldn't sleep that night. He swung from side to side. So he reached for the book and began reading. He hadn't even noticed that it was midnight. He was about to turn off the light when a strange figure appeared in front of him. After a dazed moment, he realized it was a ghost. In disbelief, he pinched himself several times to see if he was already sleeping. However, it was not a dream, but everything was really happening. The ghost said that once in his lifetime he was a millionaire and like a boy, he could not spend his money wisely. And for that he was punished. Now he visits people to show people their future.

III. The Future

The ghost, as he said, did so and took the boy 10 years ahead. Max couldn't believe what he was seeing. The figure he was looking at was himself. Dirty, overgrown, in torn clothes, sitting on the street asking people for some money. The ghost, seeing Max's frightened face, explained to him that due to the lack of saving skills and good management of money, he drank and overpaid not only his money but also the legacy of his deceased parents.

IV. New Beginning

Max asked the ghost to take him back as soon as possible. After returning, he went to bed again and fell asleep immediately.

After waking up, he went to his parents and asked them to jointly set up a bank account for him, where he could save money. The parents watched with admiration at their son that in one night he had changed his behavior and preferred to save rather than spend money on stupid things.

V. Second Vision

It's been a few weeks since the account was created. Max has already saved a nice sum of money. He also found that saving is very simple and fun. The ghost visited Max again while he was reading the book. Without a word of explanation, he took the boy into the future. A completely different picture appeared before the eyes of the protagonist than the last time. He watched the elegant man travel with his wife and daughter on vacation to Hawaii. Max and the ghost returned to the room. The boy, happy that his future would be good, thanked the spirit for a life lesson and fell asleep.

The background of the entire slide is a dense, overlapping pattern of US dollar bills, primarily \$100 bills, in a light gray or off-white color. The bills are oriented in various directions, creating a textured, financial-themed backdrop.

End

This short and informative story shows that it is worth saving money because you never know what tomorrow will bring.

The background of the slide is a dense, repeating pattern of stylized banknotes, likely representing the Polish Złoty, in a light gray color. The banknotes are oriented in various directions, creating a textured, collage-like effect.
